

### Suits with Character

We're showing new Spring Models for the natty Young Dresser and more conservative Older Heads that were well chosen from the best makers.

We shall enjoy showing them to you at your convenience, for we know that you will be greatly pleased with the new styles and we're sure that you'll not find a single suit priced too high.

ADVERTISE IN THE FARMER

### LIFE OF A PIMPLE

Complexions Are Cleared and Pimples Disappear Overnight Without Trouble.

The dispensers of poslam, a new skin discovery, ask that notice be given that no one is urged to purchase it without first obtaining an experimental package. Those who have tried it will find that the fifty-cent box, on sale at Jennie Hamilton's Pharmacy and all drug stores, is sufficient to cure the worst cases of eczema, where the surface affected is not too large. The itching ceases on first application. It will also cure acne, tetter, blotches, scaly scalp, hives, barbers' and every other form of itchy, itching skin. Being flesh-colored and containing no grease, the presence of poslam on exposed surfaces, such as the face and hands, is not perceptible. Water and soap cannot be used in connection with it, as these irritate and prolong skin troubles, sometimes even causing them. As to the experimental package of poslam, it can be had free of charge by mail of the Emergency Laboratories, 32 West Twenty-fifth Street, New York. It alone is sufficient to clear the complexion overnight, and to rid the face of pimples in twenty-four hours.

### CAMEL BRAND COFFEE

This brand of coffee is going to be the most popular of any that was ever put on the market, for the reason that it is packed not from the roaster in hermetically sealed cans, which protect the flavor of the coffee, as well as protecting it from dust and the taste and smell of goods of objectionable odor. In other words it makes the coffee as near perfect as possibly can be. Camel Brand Coffee is sold only at the branch stores of The Union Pacific Tea Co., those who have a good cup of coffee should not fail to try it. Don't fail to visit their store to-morrow and see the extra specials they have for that day only, which will be given absolutely free to all purchasers in addition to the regular checks, we ask those who can, however, to do their trading as early in the day as possible, so as to avoid the afternoon and evening rush. Remember and do your trading to-morrow at the Union Pacific Tea Co., 1625 Main St., and 701 East Main St., telephone and free delivery.

### HIS HARDEST TASK.

The Bull the Matadors Found It Most Difficult to Kill.

There is no description of a bullfight in Mrs. Maud Howe Elliott's book, "Sun and Shadow in Spain," but there is a record of a meeting with a matador in the studio of the court painter, Don Jose Villegas, and the ensuing conversation, a part of which revealed the bullfighter in an unexpectedly gentle light. It also makes plain the fundamental reason why Americans object to bullfights.

"How many bulls have you killed?" some one asked of the matador.

"In twenty-five years I have killed 3,500 bulls."

"Were you ever afraid?" "I have been afraid many, many times. On those occasions I put trust in my legs and ran as fast as I could."

"The bull, however, is the noblest of animals and the bravest. He never makes a cowardly attack from behind. He is so frank. He is terrible, though. A man needs nerve to face him when he comes into the ring pawing the earth and bellowing."

"Will you tell us about the bull that was the hardest of all to kill?"

The matador's face changed.

"He was a white bull," he said slowly, "and he didn't want to fight. When he first came in he put his muzzle in my hand. He followed me about like a little dog. I led him with the cloak wherever I wanted to go. Yes, that was the hardest bull of all to kill."

### THE "GHOST FLUID."

A Test by Which May Be Discerned the Digital Effluvia.

There is an experiment, first made by Dr. J. Maxwell, advocate general at the court of appeals in Paris, a distinguished magistrate and physician, which may be repeated in any drawing room.

Place a screen covered with a dark colored cloth in front of a window so that the light falls full upon it. Between the window and the screen put the subject of your experiment. Let him hold his hands, palms toward the breast, finger tips touching, in such a position that they are projected against the dark background of the screen.

Then bid him slowly separate his hands, keeping the fingers extended widely. Standing behind him you will observe a sort of bluish gray cloud which seems to unite one hand to the other. Eight people out of ten will see this, says Vance Thompson in Hampton's Magazine. In 300 tests made by Dr. Maxwell personally 250 folk of one sex and the other discerned the digital effluvia; about 5 per cent saw it tinged a decided blue, two saw it yellow in tone, and in one instance the spectator saw it of a reddish hue.

The experiment succeeds best in a warm room. Cold and damp work against it. The duration of durability is four or five seconds.

NASAL CATARRH, an inflammation of the delicate membrane lining the air-passages, is not cured by any mixtures taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Never mind how long you have suffered nor how often you have been disappointed, we know Ely's Cream Balm is the remedy you should use. At drugists, 50c a box, by Ely Bros., 56 Warren Street, New York.

Ask for O'Rourke's union tobacco.

PAIOL, the palatable castor oil on sale at all drug stores. U. S. P.

THE PRETTIEST FACE. and the most beautiful hands are often disfigured by an unsightly wart. It can easily be removed in a few days without pain by using Cyrus' Wart Remover, for sale only at The Cyrus Pharmacy, 263 Fairfield Avenue and 188 Cannon St.

CLEANSELY, THE BEST HAND SOAP.

Guaranteed not to injure the skin. Instantly removes Stove Polish, Rust, Grease, Ink, Paint and Dirt from hands or clothing. Large can 10 cents. Manufactured by Wm. R. Winn, 246 Stratford Ave.

## BIG PURE FOOD STORE OPENS TOMORROW

Good Bread and Butter This Firm Promises to Sell Cheaper Than Any-one Else in the World.

Mohican Company Has no Bargain Sales—Gets What It Thinks a Fair Profit—Union Bakers Only Employed.

"More for a dollar than a dollar can buy elsewhere," is the motto of the Mohican Company, which opens its big pure food department store to-morrow, in the S. H. Wheeler building, with a frontage of this company to begin. The specialty of this company to begin, is bread and butter. In its 79 stores it is the largest retailer of butter in the world. They buy the total output of several of the biggest creameries in America and therefore have been able to correct any slight errors and improve the product so that the butter they receive is a staple article of the highest grade where they would be taking the chance of carrying overstocked products if they bought in the open market. Their grade butter is always reliable and sells for from 5 to 10 cents a pound less than the butter usually sold as the highest grade.

Flour is now selling at about \$7 a barrel and everywhere there is a hue and cry about the price of bread going to be raised. This firm sells a big loaf of bread for 3 cents. The bread is baked in the bakery over the store by under sanitary conditions that comply absolutely with the state bakery laws and which also go a little further, by being a little more clean than the state demands. The firm makes money with its 3 cent loaves of bread because it buys its flour in 150 car lots. In this bakery Union bakers will also make the complete line of cake and pastry which will be sold at prices which compare with the low cost of the bread.

Frank Munsey, the magazine publisher, is the genius back of the Mohican store movement. He started in business something like ten years ago. He had ideas of his own about merchandising and although many people said the business could not survive upon the principles he started it upon, one of the most perfect organizations has been perfected and the company will probably not stop until it has a store in every city of importance in the country. The policy of the company is laid down and the business is going on and on.

The management says that it is not offering bargains nor is it here to wage war upon other dealers by cutting prices. It does not consider that there are any other merchants on earth. The company knows what it pays for goods and its selling price will be regulated by the cost of goods and by the cost of selling them.

The company is conducting the merchandising business on the same broad principles that enter into railroad, and banking and shipping, and the big manufacturing industries of the country. The policy is to do an enormous business and on the smallest shading of profit.

In the basement of the building is the ice making plant connected with the mammoth butter box and meat refrigerator on the main floor. This refrigerator is large enough to hold about two carloads of beef and has a plate glass side, making a display of the beef. Meat bought in the west will come direct to the big retail store without going through the hands of any middlemen.

The fixed charges for doing business are reduced to the smallest possible point, as no goods are sold except for cash, and no orders are solicited and there are no deliveries of goods. The man who will take home his own goods gets something for his labor. If anyone wants goods delivered the company has an arrangement whereby the goods will be sent C. O. D. at the expense of the purchaser. The big store which is finished in quartered oak will be one of the most interesting places in the city to visit and from some of the prices that are being quoted it begins to look as though some people were going to be tempted to earn a few dollars by carrying home their groceries and meats.

The big floor has been divided off so there is 115 feet of counter space on each side of the store and two large squares in the center of the store.

The doors will be opened at 10 o'clock to-morrow. Manager Emmans will start work with at least 75 sales people and clerks.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having Foley's Honey and Tar. It contains no harmful drugs. F. B. Brill, local agent. \*135

### WHEAT KING SKIPS OUT WITH PLENTY OF MONEY

Chicago, April 23.—Routed by unwelcome publicity and criticism, James A. Patten has abdicated his position as "king of the wheat pit" and has fled to the seclusion of his partner's ranch in New Mexico, leaving his lieutenants to clean up the deal and get him out of the hole to the best possible advantage. All further attempts at secretiveness have been cast to the winds, and every one now knows about the deal.

A dispatch from Trinidad, Col., last night quotes Patten as saying that he sold his wheat at top price, and that he is out of the deal with plenty of money.

Today it is no more necessary for a man to have dandruff in his hair than to have tartar on his teeth.

Dandruff can never be cured until the small, aggravating and indomitable dandruff germ is conquered and destroyed.

And millions of dandruff germs have been destroyed, thanks to the great scientist and dermatologist who gave to the world Parisian Sage, the only real dandruff cure and hair grower the world has ever known.

If you have dandruff, Parisian Sage will cure you in two weeks, or your money back.

But besides ridding the scalp of dandruff, Parisian Sage is guaranteed to stop falling hair and itching of the scalp. It is not a dye. It is a prime favorite with women of refinement. It makes the hair soft, lustrous and beautiful, and is not sticky or greasy.

A large bottle for 50 cents at Levery & Bro., or by express, charges prepaid, from the American makers, Glouco Mfg. Co., Buffalo, N. Y.
